

NEW Comprehensive Flight and Knowledge Training Textbooks for Glider Pilots

- Covers ALL topics required by the FAA from first flight to License to the Bronze Badge.
- No other textbooks are needed!
- Clearly written, generously illustrated, and professionally edited for content, accuracy, and style.
- Logical, ordered, and complete presentation of material.
- Includes Progress Records to monitor and record student progress, making it easier to transition students between multiple instructors.
- Written for the new student, but also excellent study guide for BFR's.
- 8 1/2" by 11" format with 12 point type and large, easy to read figures.
